

# QuickSCRIP Pharmacy System

BY COST EFFECTIVE COMPUTERS

**Q**uickSCRIP® Pharmacy System is designed by and for the Independent Retail Pharmacist. With over 360 users in eight states, QuickSCRIP provides the answers to your operating needs. Designed for ease of use, QuickSCRIP incorporates the following features:

**WINDOWS-BASED COMPUTERS:** QuickSCRIP runs on any Windows based computer that meets our specifications. This gives you the option to purchase your hardware from us, from a local provider, and even use some of your existing hardware. Then take advantage of Windows for internet access, fast backups, and downloadable program enhancements.

**KEYBOARD-DRIVEN:** Keep your hands on the keyboard for greater speed and flexibility.

**FILL-IN-THE-BLANK PRESCRIPTION FILLING:** Utilize pick lists to fill in the patient, doctor, and drug information, or choose from the prescription history of a patient to process a refill.

**FAST CLAIMS TRANSMISSIONS:** Transmit up to four scrips at a time to third party insurance

companies and Medicaid using an internet connection or modem.

**QUICK DATA ENTRY:** QuickSCRIP allows you to add new patient, doctor, and drug information directly from the prescription filling screen. Editing this information is just as easy with function "quick keys," allowing easy access to maintenance files to change current data for patients, drugs, doctors, sigs, insurance companies, and price tables.

**EXTENSIVE SEARCH AND LINK-AGE CAPABILITIES:** Find patients by name, phone number or family. Find doctors by name or DEA number. Find drugs by

name, NDC number or their generic equivalent. QuickSCRIP also makes it easy to link family members as well as brand and generic drugs.

#### MULTIPLE PATIENT

**ACCOUNTS:** Maintain up to four third-party insurances in addition to a Medicaid and a personal charge account for each customer.

Bruce Broadrick,  
Franks Pharmacy, Dalton,  
GA: "I have been a Cost-Effective customer since 1983. The system is so easy to use that I am still waiting for my two days of training time! Customer support is always immediate, with complete resolution to problems and concerns. Cost Effective delivers systems working for pharmacists, not computer systems making pharmacists work!"

David McGee,  
McGee's Prescription Shop,  
Shelbyville, TN: I have been using the QuickSCRIP pharmacy system since 1984. I am very pleased with the system's performance and the company's excellent service. Cost Effective Computers is a company that stands out in the forefront of pharmacy software companies."

**FLEXIBLE REPORTING:** QuickSCRIP has a variety of reports on prescriptions, drugs, and patients.

We will also customize reports for your particular needs.

#### CUSTOM LABELS AND STATEMENTS:

We support a variety of label and statement formats that can be customized to your specifications. With

QuickSCRIP, you can keep your current label or use one we recommend; the choice is yours.

**WHOLESALE INTEGRATION:** QuickSCRIP has the ability to process orders directly onto most wholesaler systems and update AWP and ACQ prices exported from most wholesaler software.

**BUSINESS MANAGEMENT:** QuickSCRIP is not just about filling prescriptions fast! It is also about helping you manage your business, with features such as accounts receivable and perpetual inventory (including order processing with or without wholesaler integration).

QuickSCRIP software has HIPPA features, and is supported by a dedicated support staff. For more information, contact us at 866.259.6091 or by e-mail at sales@quickrx.net.
