

URGENT RELAYHEALTH NOTIFYRX™ DRUG RECALL NOTICE:
CARACO PHARMACEUTICALS - RETAIL RECALL – 12/17/10

Caraco Pharmaceuticals is initiating a voluntary **RETAIL LEVEL** recall that addresses a safety issue as the product bottles may contain tablets of a different strength, and as a result they are asking all retail pharmacies to now inspect for and remove **BELOW LISTED LOT #'s** for the following product:

- **Alendronate Sodium 10mg** **NDC# 41616-0636-83**

Pharmacies are advised to quarantine and discontinue distribution of these lots. Further instructions will come directly from your distributor.

RelayHealth has responded by implementing a NotifyRx™ safety alert informing pharmacies of this recall at point-of-dispense when the claim is processed through the Intelligent Network.

Beginning today, all pharmacies that participate in the NotifyRx messaging program will see the following messages for the listed drug:

Recall #1

- **Product Name: Alendronate Sodium 10mg**
 - **Drug Code: 41616-0636-83**
 - **Lot #'s: JKJ2441A**
- **Message: *NRX* Voluntary Recall of Alendronate Sodium 10mg (Caraco) Lot JKJ2441A only. Safety Issue: bottles of this lot may contain tablets of another strength. Set aside.**

If you have any questions about NotifyRx or are interested in signing up for the program, please contact your RelayHealth Sales Executive.
