

**URGENT RELAYHEALTH NOTIFYRX™ DRUG RECALL NOTICE:
NYCOMED/FOUGERA – RETAIL RECALL – 06/24/10**

Nycomed/Fougera is initiating a voluntary **RETAIL LEVEL** recall that addresses a safety issue with the product due to reports of a leaking tube crimp, and is asking all retail pharmacies to now inspect for and remove **BELOW LISTED LOT #'s** for the following product:

- **Fluocinonide Cream 0.05% 30-gm** **NDC# 00168-0139-30**

Pharmacies are advised to quarantine and discontinue distribution of these lots. Further instructions will come directly from your distributor.

RelayHealth has responded by implementing a NotifyRx™ safety alert informing pharmacies of this recall at point-of-dispense when the claim is processed through the Intelligent Network.

Beginning today, all pharmacies that participate in the NotifyRx messaging program will see the following messages for the listed drug:

Recall # 1

- **Product Name: Fluocinonide Cream 0.05% 30-gm**
 - **Drug Code: 00168-0139-30**
 - **Lot #'s: 872A**
- **Message: *NRX* Voluntary Recall of Fluocinonide Cream 0.05% (Nycomed)-Lot 872A only. Safety issue: Report of leaking tube crimp. Set aside.**

If you have any questions about NotifyRx or are interested in signing up for the program, please contact your RelayHealth Sales Executive.
